Several scenes were filmed in the ancient catacombs and underground paths which are still functional today and sometimes used as a marketplace. Visit Daenerys's throne room where she trained her three dragons.

Always buzzing, this exuberant city is perfect to explore at your leisure as you are free to duck into vibrant cafes and stroll along cobbled streets at a gentle pace. Explore on your own or with an expert guide.

DAY 8 – KORNATI ISLANDS NATIONAL PARK

Diving within the Kornati National Park is an unforgettable experience. The geography of the underwater environment combined with abundant marine life make for exciting and unique dive sites.

The underwater topography in the Kornati archipelago is as varied under the surface as it is above. Divers will delight in the caves, tunnels, crevices, sheer walls, cliffs and reefs. The boulders are covered in colourful soft corals and red gorgonians while plentiful small to medium marine life creates fascinating diversions. Because of its history and position, there are also a number of wrecks to explore surrounding the islands, particularly shipwrecks hidden in the depths.

If diving doesn't appeal, this is the perfect day to relax and enjoy the islands. Enjoy an opulent beach set up for an afternoon of relaxation and adventure. Utilise your vessels cache of watertoys and race along the pristine waters.

Return in a car to your vessel in Senj and enjoy dinner on board. Cruise overnight to Rijeka.

DAY 10 – RISNJAK NATIONAL PARK

Relatively isolated and rarely visited, despite being only 32km northeast of Rijeka, Risnjak National Park covers an area of 63 sq km and rises up to 1528m at its highest peak, Veliki Risnjak. The landscape linking the Alps with the Balkan ranges is thickly forested with beech and pine trees, and carpeted with meadows and wildflowers.

The bracing alpine breezes make it the perfect hideaway when the coastal heat and crowds become overpowering. Most of the park is virgin forest, with only a few settlements. Named after the lynx, Risnjak National Park is one of the few places left in Europe that is home to this rare animal and other extensive wildlife, including bears and wolves, which are now rarely found in most parts of Europe. Wildlife-watching with expert guides is a highlight. If you are interested, Pelorus can also provide an expert wildlife photographer to show you how to capture even the most elusive animals in exquisite detail.

A perfect finish to your walk, ending in the main square – a historical meeting place since the Augustan Age. If you are in Pula at the right time, enjoy a live performance in the amphitheatre, or Pelorus can gain you exclusive access to the space where you can host a one-of-a-kind evening of music and theatre.

In the evening, Pelorus can secure you a table at one of Pula's finest and most revered restaurants.*

CLIENT TESTIMONIALS

"Elise and the team planned and executed two owner trips, one to Iceland and one to Greenland. Both were extremely active and required minute attention to detail and constant logistical monitoring. They had heli-ops and extreme sports every day in addition to catering for those guests that required a slower pace, not to mention the family element of a young child. Everything from visas to service and hosting on board was taken care of and was a huge help to myself and the crew."

Z.S., Purser on a 75m Private Motor Yacht, Iceland & Greenland

"We got in touch with Pelorus to plan our next two years of cruising. As my family is growing I have to balance my love of staying in remote areas with my children's latest obsessions and safety too of course. Pelorus have been providing us with a great variety that suits everyone and have even arranged a press trip that I expect to bear fruit in the charter market."

V.G., Owner of Private Member Vessel, Circumnavigation Planning

"The trip was unforgettable and wonderful. We had so many fantastic moments and memories that it's going to take a while to process. Patagonia is a truly special place. Big thanks to the team for your hard work in making this happen for us on such short notice and your flexibility throughout."

Sasha K, Patagonia

"It was a great pleasure for Yachtzoo to collaborate with Pelorus recently and put together a spectacular charter for a family group aboard SURI in Papua New Guinea and the Solomon Islands. The team are definitely 'hands on' which is great, their professionalism was exceptional throughout the process and literally left no stone unturned to ensure a memorable experience for the client. Attention to detail was first class from the initial briefing onwards, the supply of information was spot on to help the crew fully prepare in the remote location and all the logistics worked perfectly. The client was thrilled with the adventure and already planning a repeat charter which is great testimony so all round a very positive experience."
