DOB: 1th July 1995

Nationality: Italian

Passports: Italian

Current location: Italy

Availability: Immediate

Health: Excellent, non-smoker, no tattoos or piercing

Full clean driving license

Profile/Objective

Very motivated, very oriented to become captain. I am convinced of possessing many skills required to be a great captain and deck Cadet. For the past five years have entered the world of timekeeping through FICr (Italian Timekeepers Federation), immediately showed it to my instructors a great

aptitude in working with timekeeping tools and organizing the tasks for various timekeepers. With the passage of time was entrusted to me to capture the team and data processing. Currently I became certified instructor and hold courses for new timekeepers. In this period I have gained a great capacity for organization and teamwork, and at the same time I learned and absorbed the best features and capabilities of my instructors.

I attended the Nautical Institute of Viareggio, attending the captains. Graduating with vote 78/100. During the five years of learned scientific studies matters of navigation and meteorology, technical matters of safety and operation of the ship.

I am currently attending the course ISYL Italian Super Yacht Life lasting about two years, in which I will come prepared to life on board and the management both at the economic level, that of a yacht material. My strengths are accuracy, loyalty, order and respect.
