## **Profile/Objective**

A highly self-motivated deck cadet who hasn't got any board experience but really wants to begin this career and wants to grow both on a professional and personal level.

After the Scientific Diploma in 2011, I attended the Italian Shipping Academy course in Genova in 2013 to reach my goal, to become a deck cadet. I continued to improve my studies by attending the Marine Technical Institute in Viareggio in 2015, but also with this diploma I didn't find companies which would let me embark on this career path. Currently I'm attending the "Super Yacht Captains and Chief Engineers" course in Viareggio, "ISYL- Italian Super Yacht Life- Foundation", trying to start my career on board of yachts.

Since 2014 I've been working with my father. We have a timber warehouse business specializing in teak and plywood. Thanks to this job I have improved organization and planning. Through this experience, I have learnt a lot about shipping delivery, storage logistics and dealing with international clients. In summers before 2014, I had two different jobs, as a waiter and then as an animator. These experience allowed me to have good relationship, open to dialogue and to every aspect of work and multicultural opportunity.

## **Work Experience**

2014-2016: warehouseman in timber business, CF srl Massarosa (LU) Italy  
2012-2014: waiter and animator
