

# The Maritime Services Group

*"Leading the field in Maritime Industry Surveying,  
Training, Consultancy, Investigations and Legal Matters."*

**Leading the field in Maritime Industry Surveying, Training, Consultancy, Investigations and Legal Matters.**

Established in 1992, The Maritime Services Group has expanded and developed to service a global client base within the marine industry from our headquarters in the United Kingdom.

From our roots as marine surveyors, naval architects and master mariners our group has grown to include five distinct companies that cover the globe and include surveying, distance learning, classroom based courses and bespoke onsite training.

We have developed a long standing relationship with our customers in every marketplace we trade in due to our ability to identify clearly their needs and exceed their expectations. We pride ourselves on the quality and speed of service we provide in all our businesses.

We only work with the most experienced professionals in each market area and geography, enabling us to offer a breadth of maritime industry knowledge and capability that few can challenge.

**Welcome to The Maritime Services Group**

Established in 1992, we now service a global client base within the marine, legal and film industries. With a network of surveyors in 22 countries, we are able to offer a truly fast and professional response worldwide.

With an established reputation for delivering a quality service on an international level, our highly qualified, knowledgeable and experienced team offer their expertise on all manner of projects from Pre-purchase Surveys and New Build Project Management to standing as Expert Witness in the Crown Court.

We have developed long standing relationships with our clients, due to our ability to identify their needs clearly and then to exceed expectations. We pride ourselves on our accuracy and the speed with which we can fulfil your requirements.

Please contact us 24 hours a day, 365 days a year with your requirements.

**"After over a decade working with Maritime Services International we still can't fault their professionalism, efficiency and quality of services."**  
Iain Cotton, Lead Yacht

**Maritime Services International offers a complete range of survey, consultancy, investigation and legal support services for all types of floating vessel and structure.**

# Snowden McLeod and Associates

**Snowden McLeod and Associates are leaders in the field of oil tanker surveys, investigation, consultancy and valuation. Our independent marine specialists are actively involved with oil tanker conversions from the start of a project to its completion.**

FPSOs can be derived from conversion of oil tanker vessels or can be built specially for the application. We offer full FPSO conversion project management, our customers to date have included Chevron and Enterprise Oil/Shell. Projects can run over several years with our surveyors working as required to ensure everything is delivered within a complex and constantly changing schedule.

We are also able to provide our expertise when buying or selling an oil tanker, both single and double hull oil tanker conversion, safety inspections, cargo expediting for maximum pumping rates and cargo expediting for operational prudence, port feasibility studies, pipeline inspections, liquid cargo contamination investigation, oil spillage investigation, ISM audits, on board operational training and expert witness experience in oil tanker related litigation.

# Plunket & Falconer

Today we are able to offer the full range of survey, investigation and consultancy services available from Maritime Services International with exceptional local knowledge.

**Plunket & Falconer was founded in Auckland, New Zealand in 1930.**

In 2008, it became part of the Maritime Services Group but continues a tradition of service to the Shipping Industry in Australasia.

Although still based in Auckland we have surveyors who represent us all over New Zealand and are able to service ports in Australia and the Pacific Islands.

The strength and long history of Plunket & Falconer has always been the ability, integrity and discretion of its staff to conduct their business in a professional manner.

"Following a thorough and efficient survey, with a detailed technical report, we were able to save a lot of time and money by negotiating to have technical issues rectified before completing the purchase of our yacht."

**Captain Simon Finlayson**

"Having worked with Maritime Services on a number of occasions including both technical, general surveys and legal issues, they have always been thoroughly efficient, knowledgeable and professional. I would highly recommend their services."

**Adam Gray,**

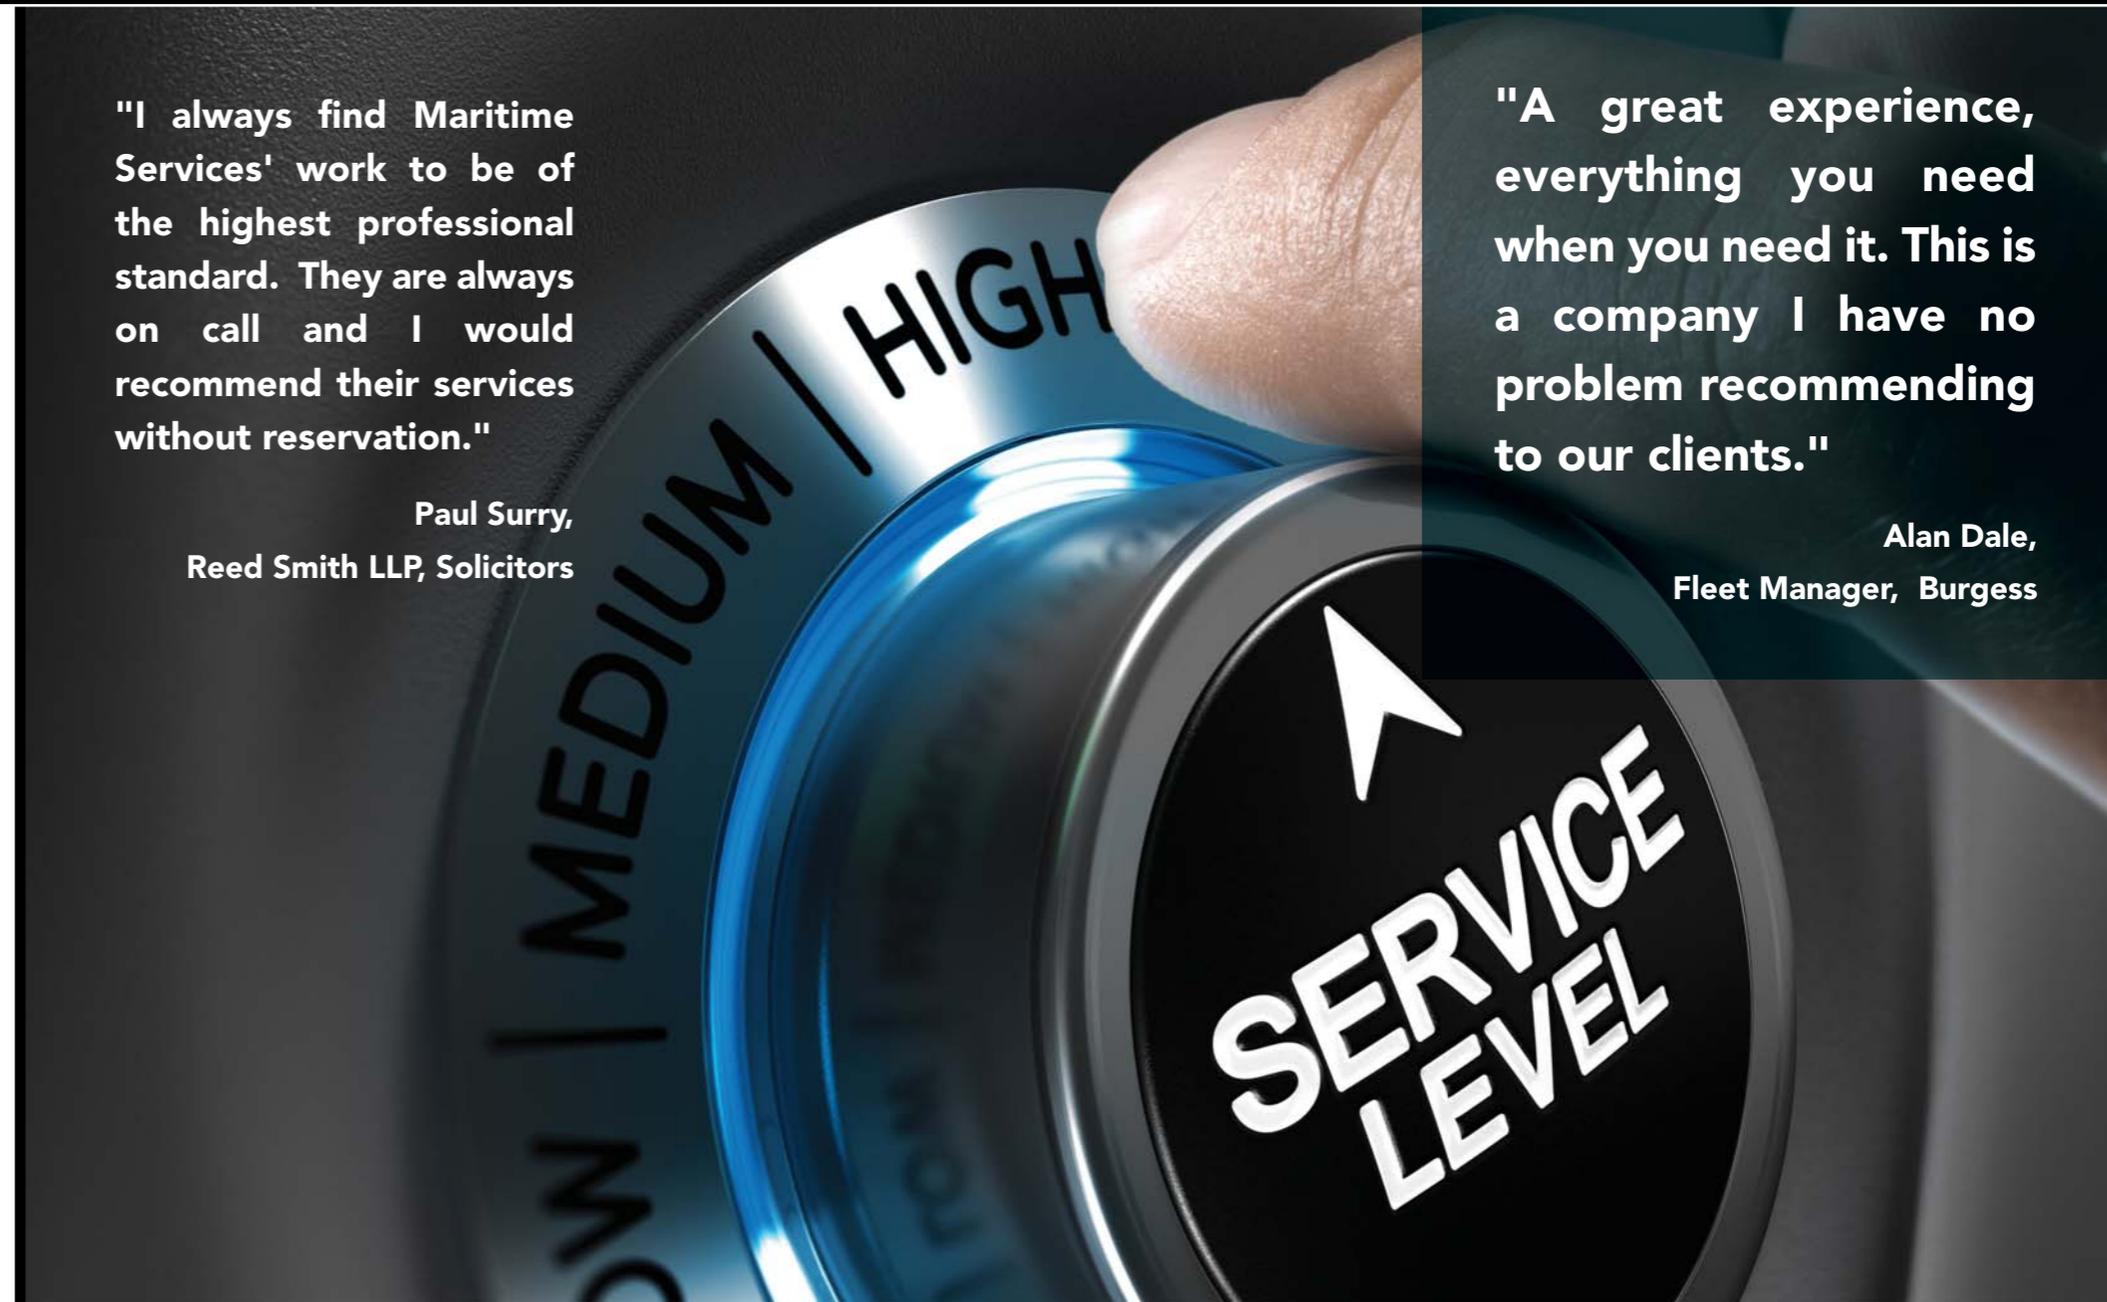

**The Shipowners' Protection Limited**

"I always find Maritime Services' work to be of the highest professional standard. They are always on call and I would recommend their services without reservation."

**Paul Surry,**  
**Reed Smith LLP, Solicitors**

"A great experience, everything you need when you need it. This is a company I have no problem recommending to our clients."

**Alan Dale,**  
**Fleet Manager, Burgess**
